IQI QOROR

A native of Indonesia, Iqi Qoror obtained a Master's Degree in Fine Art from the Indonesian Institute of the Arts. His paintings revolve around the questions of trust, interspersed with fragments of modernity set against his own social experience. His multi-media works incorporate painting and embroidery and deal with themes of identity and human connection.

Qoror constantly challenges himself to be more experimental and versatile in his art practice, from installation to mixed media painting. Qoror has established himself as one of the fastest rising stars of the Indonesian art scene.

Starting with the gradual dominance of the South East Asian art market, Qoror now has a growing international collector base through his exhibitions in international hot spots such as Singapore, Hong Kong, and now Los Angeles.
